

## Engineering Section BTEC L3 Extended Certificate in Engineering Scheme of Learning (Also, BTEC SOW)

Key: T=Teacher Activity S=Student Activity WS=Worksheet CTB=Course Textbook PS=Pro-Study

1st Year (2021/2022) – Term 1

Week	Lesson 1(unit1)	Lesson 2(unit1)	Lesson 3(unit2)	Lesson 4(unit2)
1	Welcome	Initial Assessment Maths	U2-Engineering Drawings	U2- Workshops Skills
	Introduction to the Course and Unit 2	Maths (30min)	Mechanical Drawings	Heath and Safety
9/9/	Mode of Assessment & Grading	Written (30min)	Electrical Drawings	Use of micrometre, vernier, rule
24	BTEC Regulations	Library induction – Harvard	Hydraulic/Pneumatic Drawings	
	Expectations in class and H/W& PS	referencing techniques	Information on Engineering	Introduction to hand tools names
	Workshop Code -PPE	SI Units	Drawings, border, lines, text	How to use hand tools
	Create AutoCAD login	S-1-2-1 task	T- WS1	T-Demonstration
	T-P/P		S- Home Task	S- Use of equipment to measure
	S- Research books in Lib			engineering components, also
				making sketches
2	U1- Laws of Indices	U1-Logartihms	U2-First Angle Projection	U2—Line types- centre lines / hidden
	Laws of indices	Laws of Logarithms	Third angle projection	lines/text/
16/9	T- PowerPoint	Change of base	Isometric sketches	
/24	CTB- Workbook Page 1	Common logs Natural log	BS8888	T-PowerPoint / Demo
	S- see workbook task	T- PowerPoint	T-PowerPoint / Demo	S- WS1 – Produce sketches and 1 <sup>st</sup>
		CTB- Workbook Page 2	S- WS1 – Produce sketches and 1st	angle drawings
		S- see workbook task	angle drawings	
3	U1-Equations of Lines & Exponential	U1-Simultaneous Equations and liner	U2- Practice commands into	U2 Grid, snap, line, circle, radius,
	Functions	equations.	engineering drawings, grid, snap,	copy, mirror, scale, more advance
23/9	Point Gradient / slope / y=mx+c	Substitution	line, circle, radius, copy, mirror,	commands, section, use of advance
/24	T- PowerPoint	Elimination	other. use of menus	menus.
	CTB- Workbook Page 3&4	T- PowerPoint	T-PowerPoint / Demo	T-PowerPoint / Demo
	S- see workbook task	CTB- Workbook Page 5	S- WS1 – Produce sketches and 1 <sup>st</sup>	S- WS1 – Produce sketches and 1 <sup>st</sup>
		S- see workbook task	angle drawings	angle drawings
4	U1- Quadratic Equations	U1- Quadratic Equation Formula	U2- Use of layers in engineering	U2-Controlled assessment
	Expanding and Factorizing	Factorizing quadratics	drawings. Set up layers, name	Students select a component from
30/9	Expanding brackets	Completing the square	layers, allocate colours. Turn	the workshop and take
/24	Factorizing	Solution by formula	layers on / off	measurements /sketch

	T Developint		Assissant bandant data	T abanistics
	T- PowerPoint	T- PowerPoint	Assignment handout date	T-observation
	CTB- Workbook Page 6&7	CTB- Workbook Page 8	T-PowerPoint / Demo	S-produce sketch and AutoCAD
	S- see workbook task	S- see workbook task	S- WS1 – Produce sketches and 1 <sup>st</sup>	Drawing
			angle drawings	T-Complete observation on Layers
				(M grade)
5	U1-Radians and sectors	U1-Trigonometric – Right Angle &	U2-Controlled assessment	U2Controlled assessment
	Convert radians to degrees	Sine Rule	Students select a component	Students select a component from
7/10	Degrees to radians	Right angle triangle	from the workshop and take	the workshop and take
/24	Arc length	Sine rule using radians	measurements /sketch	measurements /sketch
	Sectors areas	T- PowerPoint	T-observation	T-observation
	T- PowerPoint	CTB- Workbook Page 12	S-produce sketch and AutoCAD	S-produce sketch and AutoCAD
	CTB- Workbook Page 9	S- see workbook task	Drawing	Drawing
	S- see workbook task		T-Complete observation on	T-Complete observation on Layers
			Layers (M grade)	(M grade)
6	U1-Cosine Rule	U1-Surface Area & Volumes	U2-Controlled assessment	U2-Controlled assessment
	Cosine rule	Cylinder	Students select a component	Students select a component from
14/1	T- PowerPoint	Sphere	from the workshop and take	the workshop and take
0/24	CTB- Workbook Page 11	Cone	measurements /sketch	measurements /sketch
	S- see workbook task	T- PowerPoint	T-observation	T-observation
		CTB- Workbook Page 15	S-produce sketch and AutoCAD	S-produce sketch and AutoCAD
		S- see workbook task	Drawing	Drawing
			T-Complete observation on	T-Complete observation on Layers
			Layers (M grade)	(M grade)
7	U1-Vectors and Force Systems	U1-Momemnts and Simply	U2-Controlled assessment	U2-Controlled assessment
	Victor diagrams	Supported Beams in equilibrium	Students select a component	Students select a component from
21/1	Graphical vector addition	Turning Moment	from the workshop and take	the workshop and take
0/24	Analytical vector addition	Simply supported Beams	measurements /sketch	measurements /sketch
	FBD	UDL Beams	T-observation	T-observation
	T- PowerPoint	T- PowerPoint	S-produce sketch and AutoCAD	S-produce sketch and AutoCAD
	CTB- Workbook Page 15,16, 17	CTB- Workbook Page 17, 18	Drawing	Drawing
	S- see workbook task	S- see workbook task	T-Complete observation on	T-Complete observation on Layers
			Layers (M grade)	(M grade)
				Assignment Due
8	U1-Direct Loading and Shear Loading	U1-Velocity, displacement &	U2-Primary manufacturing	U2-Scondart manufacturing process
	Direct Stress	acceleration. SUVAT	process –	- Turning / milling/drilling/ punching

	<u></u>	l	d In 1532	
4/11	Direct Strain	Constant acceleration formula	casting/forging/injection	T-PowerPoint
/24	Youngs Modulus	Laws of motion	moulding / die castings	S-Note taking / discussion
	Shear stress	T- PowerPoint	T-PowerPoint	H/W – Research and Explain 3
	Shear strain	CTB- Workbook Page 21,22	S-Note taking / discussion	secondary manufacturing processes
	T- PowerPoint	S- see workbook task	H/W – Research and Explain 3	PS-Research and Explain 3 secondary
	CTB- Workbook Page 19,20		primary manufacturing processes	in detail- explain / analysis and
	S- see workbook task		PS-Research and Explain 3	evaluate
			primary in detail- explain /	
			analysis and evaluate	
9	U1-Force, friction and torque	U1-Work and power, Energy	U2-Scale of production	U2-Scale of production
	Force, friction,	Mechanical Work	One-off/batch/mass/continuous	Processes type / skills matrix
11/1	T- PowerPoint	Power	production	T-PowerPoint
1/24	CTB- Workbook Page 23	KE, PE	T-PowerPoint	S-Note taking / discussion
	S- see workbook task	T- PowerPoint	S-Note taking / discussion	H/W – Research and Explain the use
		CTB- Workbook Page 25	H/W – Research and Explain the	of scales of production process
		S- see workbook task	use of scales of production	PS-Research and Explain 3 scales of
			PS-Research and Explain 3 scales	production- process and machine
			of production- explain / analysis	matrix explain / analysis and
			and evaluate	evaluate
10	U1-Newton's laws of motion,	U1-Angular Parameters	U 2- Rolling hot and cold –	U2-Health and Safety
	momentum and energy	Angular and liner velocity	microstructure.	HSAWA / Other regulations applied
18/1	Laws of motion	Centripetal acceleration	T-PowerPoint	to mechanical / electrical /
1/24	Momentum	Power	S-Note taking / discussion	aerospace / marine engineering
	Conservation of momentum	Kinetic rotation energy	H/W – Research and Explain the	T-PowerPoint
	Conservation of energy	T- PowerPoint	use of Cold and Hot Rolling	S-Note taking / discussion
	T- PowerPoint	CTB- Workbook Page 27	PS-Research and Explain 3 scales	H/W – Explain the Health and Safety
	CTB- Workbook Page 26	S- HW1	of production- explain / analysis	at work Act 1975
	S- see workbook task	S- see workbook task	and evaluate	PS- Select 3 health and regulations
11	U1-Mechnical Power and	U1-Submerged Surfaces	U2-Health and Safety	U2-Human Factors
_	Transmission	Hydrostatic pressure, hydrostatic	HSAWA / Other regulations	Applications of HF to engineering
25/1	Mechanical advantage	thrust.	applied to mechanical / electrical	sector
1/24	Velocity ratio	Average hydrostatic pressure	/ aerospace / marine engineering	T-PowerPoint
	Efficiency	Centre of pressure	T-PowerPoint	S-Note taking / discussion
	T- PowerPoint	T- PowerPoint	S-Note taking / discussion	H/W – Explain 3 HF as applied to
	CTB- Workbook Page 28	CTB- Workbook Page 29	H/W – Explain the Health and	engineering workshop while working
	S- see workbook task	S- see workbook task	Safety at work Act 1975	in groups

		Founde	ed in 1532				
			PS- Select 3 health and	PS-Research other HF and explain 3	I		
			regulations	more	I		
12	U1-Immersed Bodies and Archimedes	U1-Fluid Flow in Tapering Pipes	U2-Controled Assignment	U2-Controled Assignment	I		
	Principle	Volumetric flow rate	Manufacturing process/H&S/HF	Manufacturing process/H&S/HF	I		
2/12	Density and relative density	Mass Flow rate			I		ı
/24	Suspended body submerged in a fluid	Continuity flow equation	T-Assignment hand out date	T-Assignment hand out date	I		
	Floating bodies	T- PowerPoint	S- Start assignment	S- Start assignment	I		ı
	T- PowerPoint	CTB- Workbook Page 31			I		
	CTB- Workbook Page 30	S- see workbook task			I		ļ
	S- see workbook task		Assignment 2 Hand out date		I		l
		Christmas Break			I		ļ
13	U1-Ohms laws and current Flow	U1-Coulomb's law and electrostatic	U2-Production Planning	U2 – Production Plan for milled	I		ļ
	Revision on ohms law	force.	Stepped shaft	component	I		l
9/12	Static electricity	Coulomb's law			I		
/24	Current flow and atomic structure	Charged particles	T-PowerPoint	T-PowerPoint	I		
	Conventional current flow	Permittivity of free space – uniform	S- Making notes / produce a	S-Produce production plan for milled	I		
	T- PowerPoint	field	production plan.	and drilled component	I		
	CTB- Workbook Page 32	T- PowerPoint	Process/machine/tooling	PS-complete production plan	I		ļ

16	U1-Ohm's law Power efficiency 1 & 2	U1-Kirchoff's Voltage and Current	U2-Setting up machining process	U2-Setting up machining process
	Graphical and non-graphical form	laws.	Lathe /Mill/Drill	Lathe /Mill/Drill
13/1	Graphical form	Kirchoff's voltage law		
/25	Variation on power equations	Kirchoff's current law	T-Demo in the workshop	T-Demo in the workshop
	Efficiency	Combining Kirchoff's and Ohms law	S- Conduct setting up a machine	S- Conduct setting up a machine
	T- PowerPoint	T- PowerPoint	PS-Compare with peers other	PS-Compare with peers other setting
	CTB- Workbook Page 40.41	CTB- Workbook Page 42	setting up procedures	up procedures
	S- see workbook task	S- see workbook task		
17	U1- Capacitors Networks, Capacitors	U1 -Capacitors in circuits – RC	U2-Quality Plan – use of quality	U2-HF and working as Teams,
	charging and discharging.	transients and capacitor time	plans in manufacturing	performance.
20/1	Capacitors Networks	constant. RC transient		
/25	Charging capacitors	Capacitor charging	T- Demo on how to check quality	T-PowerPoint / Role play
	Energy stored in a capacitor	Capacitor discharging	features using verniers and	S-Role play analysis
	Capacitor parallel and series network	T- PowerPoint	micrometres	PS- Compare with other peers,
	T- PowerPoint	CTB- Workbook Page 45, 46	S-Complete quality checks	performance factors
	CTB- Workbook Page 43,44	S- see workbook task	PS-Research how quality plans	
	S- see workbook task		are used in engineering	
18	U1-Diodes – bias and applications.	U1-Resistors in series or parallel.	U2-HF and working as Teams,	U2- Cut raw material for assignments
	DC power sources	Resistors in series and parallel	performance.	and produce machine rotos
27/1	Forward bias	combinations		
/25	Reverse bias	T- PowerPoint	T-PowerPoint / Role play	
	Batteries	CTB- Workbook Page 49,50	S-Role play analysis	S-cut raw materials, base and pegs.
	Cells	S- see workbook task	PS- Compare with other peers,	Produce a team schedule
	T- PowerPoint		performance factors	
	CTB- Workbook Page 47,48			
	S- see workbook task			
19	U1- Resistors and diodes in series	U1-Capacitors in series or parallel.	U2-Control Assignment	U2-Control Assignment
	T- PowerPoint	Capacitors in series and parallel		
3/2/	CTB- Workbook Page 51	combination		
25	S- see workbook task	T- PowerPoint		
		CTB- Workbook Page 52,53	S-working as teams to complete	S-working as teams to complete
		S- see workbook task	gameboard and pegs	gameboard and pegs
20	U1-Magnetism and magnetic fields	U1-Permeability, B/H Curves, loop	U2-Control Assignment	U2-Control Assignment
	Magnetic fields, magnetic flux density,	and hysteresis. Relative permeability		
10/2	ferromagnetic materials, solenoids,	B/H curves in ferromagnetic		
/25	magnetic field strength	materials		
	T- PowerPoint	T- PowerPoint		

	CTD Wedlerd Dece 54	1	ed in 1532	6

	S- see workbook task	S- see workbook task	gameboard and pegs	gameboard and pegs
21	U1-Relutance and magnetic screening.	U1-Electromagnetic induction	U2-Control Assignment	U2-Control Assignment
	Analogy of reluctance and resistance	Basic DC motor operations		
24/2	Reluctance	Induction DC motor		
/25	Magnetic screening	T- PowerPoint		
	T- PowerPoint	CTB- Workbook Page 1	S-working as teams to complete	S-working as teams to complete
	CTB- Workbook Page 57	S- HW1	gameboard and pegs	gameboard and pegs
	S- see workbook task	S- see workbook task		
22	U1Electromagnetic induction	U1-DC Motors	U2-Control Assignment	U2-Control Assignment
	Basic DC motor operations	Basic design and operations of a DC		
3/3/	Induction DC motor	motor		
25	T- PowerPoint	Industrial DC motor		
	CTB- Workbook Page 58	T- PowerPoint	S-working as teams to complete	S-working as teams to complete
	S- see workbook task	CTB- Workbook Page 59	gameboard and pegs	gameboard and pegs
		S- see workbook task		
23	U1-Electrical Generators	U1-Inductors and self-induction	U2-Control Assignment	U2-Control Assignment
	Operation of an electrical generator	Induction, electromotive force emf		
10/3	Factors effecting induced EMF	(e) self-inductance in a coil (L),		
/25	Sinusoidal Output of generator	Energy stored in an inductor (W)		
	T- PowerPoint	T- PowerPoint	S-working as teams to complete	S-working as teams to complete
	CTB- Workbook Page 60	CTB- Workbook Page 61	gameboard and pegs	gameboard and pegs
	S- see workbook task	S- see workbook task		
24	U1-Transfomers and mutual	U1- AC Waveforms	U2-Assignment 3 Presentation	U2-Assignment 3 Presentation
	inductance	Sinusoidal waveform		
17/3	Mutual induction (M), transformers	Square waveform		
/24	Transformer calculations.	Triangular waveform		
-	T- PowerPoint	Sawtooth waveform	S-Team Presentations	S-Team Presentations
	CTB- Workbook Page 62	T- PowerPoint		
	S- see workbook task	CTB- Workbook Page 63	Employer input	Employer input
		S- see workbook task		
25	U1-Single phase AC parameters	U1-Analysing AC voltage using	U3-Introduction to unit 3	U2/3 – Workshop Practise
	AC Parameters. Peak-to-Peak, Root-	phasors.	Design trigger and design cycle	
21/3	Mean Square, Average Voltage and	Graphical addition, Phasor addition		S-Produce engineering component
/25	Form Factor	T- PowerPoint	T-PowerPoint	(Job 1)
•	T- PowerPoint	CTB- Workbook Page 65	S-Case study a past exam study	
	CTB- Workbook Page 64	S- see workbook task	PS-Complete case study	

		Tourida	ed in 1532	
	S- S- see workbook task			
26	U1-Reactance and impedance	U1- Reactance and impedance	U3 Design Process – Customer	U2/3 – Workshop Practise
	Capacitive Reactance (Xc)	Capacitive Reactance (Xc)	needs. Opportunities and	
31/3	Inductive Reactance (X <sub>L</sub> )	Inductive Reactance (X <sub>L</sub> )	constraint.	S-Produce engineering component
/25	Resistor/capacitor series circuit	Resistor/capacitor series circuit		(Job 1)
	Resistor/inductor series circuit	Resistor/inductor series circuit		
	Total impedance of a	Total impedance of a	T-Past exam papers question on	
	resistor/capacitor series circuit	resistor/capacitor series circuit	client needs	
	Total impedance of resistor inductor	Total impedance of resistor inductor	S-Produce a list of opportunities	
	series circuit	series circuit	and constraints.	
	T- PowerPoint	T- PowerPoint

	S- see workbook task	S- see workbook task		
27	U1-Rectifiction	U1-Revision – Past Papers	U3 – Customer data analysis	U2/3 – Workshop Practise
	Simple half wave rectifier			
21/4	Full wave bridge rectifier		T-Past exam paper on client data	S-Produce engineering component
/25	Smoothed full bridge rectifier		Develop analysis for data given	(Job 1)
	T- PowerPoint			
	CTB- Workbook Page 67		S- Produce bar charts /line	
	S- HW1		graphs/pie charts.	
	End of learning for Unit 1		Evaluate outputs	
			PS-Past Papers	
28	U1- Revision – Past Papers	U1- Revision – Past Papers	U3- Scheduling techniques –	U2/3 – Workshop Practise
			Gantt chart / CPA	
28/4			T-Past exam papers question	S-Produce engineering component
/25			S-Produce Gantt chart for exam	(Job 1)
			question	
			PS-Past Papers	
29	U1- Revision – Past Papers	U1 Revision – Past Papers -	U3 – Product Design Specification	U2/3 – Workshop Practise
5/5/			T-Past exam papers question	
25			S-Produce PDS for exam question	S-Produce engineering component
			PS-Past Papers – produce PDS	(Job 1)
30	U1- Revision – Past Papers	U1- Revision – Past Papers	U3 – Design concepts –	U2/3 – Workshop Practise
		·	movement / levers /links	·
12/5				S-Produce engineering component
/25			T-Engineering design case study	(Job 1)

		Founde		T
			S-Produce design solution /	
			produce sketches	
31	U1-	U1-	U3-Engineering Materials	U3-Production Process – Primary
19/5	Exam 22 <sup>nd</sup> May 2025	Exam 22 <sup>nd</sup> May 2025	T-PowerPoint	T-PowerPoint
/25			S-Select engineering materials for	S-Select production process from
			given exam questions from past	past exams papers
			papers	PS-List and explain primary
			PS-Research engineering	processes
			materials and applications	
32	U3-	U3-	U3	U2/3 – Workshop Practise
